

GATHERINGS OF GREATNESS

SOUTHLAND SURF CLUBS FROM THE MID 50s TO MID 70s
BRUCE GABRIELSON, PhD

This book was been a labor of love for me. I wanted to document the club involvement many of us experienced during a special age of surfing. Most surfers started surfing with their friends at local spots with some graduating on the more challenging breaks and associating with more advanced surfing friends as their skills progressed.

While some clubs have disappeared into history, others have grown or been re-born with newer interest in clubs. This book represents a serious amount of work tracking down the few dwindling sources of those who were there during the golden era of surf clubs, the mid-50s to the mid-70s. Read who, where and how it all began.
